Content Optimization For Imagery

Always look to continuously set certain standards when creating content. These are three factors you may use to perfect the content you put out.

- Voice
- Tone
- Style

Measuring The Success

Having identified your business goals, you can now dive deeper into the marketing metrics that influence your content's impact. These are the marketing metrics into four steps:

- Discovery: Impressions, Site visits, Clicks
- Engagement: Ensure content is engaging (Buy)
- Conversion: To persuade into more sales
- Social Share: Share the progression

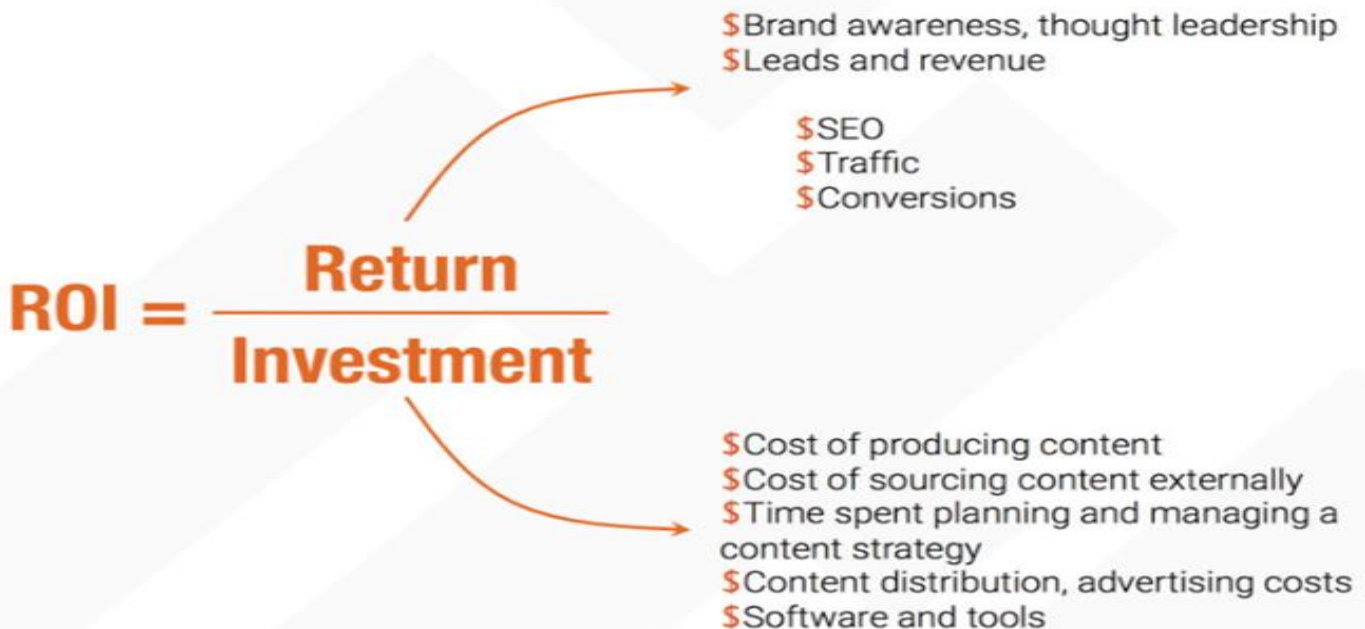

\$Costs\$

Content can be created from a variety of digital mediums to enforce and get your point across, some examples of the content types to be created are:

- Infographics
- Free guides
- Case studies
- Videos
- Curated content
- Resource pages
- Articles
- Interactive content

Once you have decided on a topic and content format to use, the next step in the process is to create a rough draft, wireframe, or outline for the intended content piece. The creation of content can run on various factors depending on complexity, research, employee incentives, etc.
